Cash Movement and Average Outflow Per Wallet

Closing Balance Ranking by Wallet

- . Positive balance: Every wallet brought in more money than it spent, adding up to a total gain of 644K over the period.
- . Wallet sizes vary: KayPay has doubled balance compare to DuoPay where average ending balances are 212K and 108K, respectively.
- . Resilience: Balances sometimes decrease from week to week but always bounce back, so each wallet shows steady overall growth.
